Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt of applicant's amendment filed 12/6/2004 is acknowledged. Claims 1-7 are pending.

Response to Arguments

Applicant's argument that Ziffer does not disclose integral one-piece return bends, filed 12/6/2004, with respect to the rejection(s) of claim(s) 1-7 under Ziffer have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Paulman (US 5,228,198).

The objections to the specification, drawing are withdrawn in view of applicant's amendment.

The rejection against claims 3 and 4 under 112th are withdrawn in view of applicant's amendment.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Paulman et al. (US 5,228,198). Paulman discloses a heat exchanger assembly of a side entry type having at least one fin set (21) comprising an elongated heat exchanger tube (22); the elongated heat exchanger tube including one-piece return bend

portion; and the tube wall is about 0.016 inches. Since tubes (22) is only 0.016 inches and made of bendable material such as aluminum, the tube walls are collapsible and expandable. The limitations of opposing elongated recess, two collapsed portions contacting each other and U-shaped configuration recited in claims 3-7 are parts of an intermediate product of the heat exchanger tube. Therefore, these limitations do not define any structure for the final product and accordingly can not serve to distinguish. The final product of Paulman is the same as the final product as claimed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
